RE: Electrical Certification Course

Dear Mr. Yapp;

I'm writing to let you know that all five (5) of the employees I have sent to you have had great things to say about your course.

The employees commented on your wealth of knowledge, your teaching style is not "sleepy". One employee was sure he would fall asleep. He didn't and he left knowing a lot more than when he arrived. Other employees commented the ease of getting to know the NEC Code book and found the class interesting.

One of our journeyman had tried the test prior to your course and failed. After your course and support he was confident and passed with a high grade. We are most impressed with the interest you share to have these gentlemen succeed.

I enjoyed working with you and the feed back I received from you regarding our employees and will send all future journeymen to your class.

Sincerely,

Carolyn Padilla
Executive Assistant
